Item 8.01 Other Events

As previously announced, Aptevo Therapeutics Inc. (the “Company”) effected a 1-for-14 reverse stock split of the Company’s outstanding common stock that was effective on March 26, 2020.

As a result of the reverse stock split, proportionate adjustments were made to the per share exercise price and/or the number of shares issuable upon the exercise or vesting of all then outstanding stock options, restricted stock units and warrants, which resulted in a proportional decrease in the number of shares of the Company’s common stock reserved for issuance upon exercise or vesting of such stock options, restricted stock units and warrants, and, in the case of stock options and warrants, a proportional increase in the exercise price of all such stock options and warrants.

In particular, each of the Company’s outstanding warrants (CUSIP# 03835L116), in accordance with their terms, will now be exercisable with an exercise price of \$18.20 (equal to original exercise price of \$1.30 per share times 14) and 0.07142857 shares of common stock for each one share of common stock originally issuable under such warrant (equal to one divided by 14). The outstanding warrants are now exercisable for a total of 1,417,857 shares of common stock. On April 13, 2020, the Depository Trust Company (DTC) provided notification of such changes to the warrant holders.
