### APTEVO THERAPEUTICS REPORTS THIRD QUARTER FINANCIAL RESULTS WITH BUSINESS HIGHLIGHTS

SEATTLE, WA – November 12, 2021 – Aptevo Therapeutics Inc. ("Aptevo" or the "Company") (NASDAQ: APVO), a clinicalstage biotechnology company focused on developing novel immuno-oncology therapeutics based on its proprietary ADAPTIR<sup>™</sup> and ADAPTIR-FLEX<sup>™</sup> platform technologies, today reported its financial results and business highlights for the quarter ended September 30, 2021.

#### **Business Highlights**

- Enrollment and dosing have commenced in Part 2 (Expansion Phase) of Company's multicenter 5001 Phase 1B clinical trial to evaluate APVO436 in adult patients with acute myeloid leukemia (AML).
- Reported 3 publications in two peer-reviewed journals (*Cancers[Basel]*) and Frontiers in Aging) regarding the salient features of the data obtained during Part 1 (Dose escalation phase) of the 5001 APVO436 Phase 1B trial.
- Participated in Euroleukemia2021 Meeting with an oral and a poster presentation.
- Showcased the Company's preclinical assets, APVO442 and APVO603, and their potential to improve efficacy in the treatment of solid tumors and participated in discussions about risk mitigation in cell engager candidates at the Virtual Cell Engager Summit.
- Presented the unique aspects of the Company's proprietary ADAPTIR AND ADAPTIR-FLEX platforms at the Cambridge Health Institute PEGS Virtual Conference.

"I am excited about our clinical progress in the third quarter, as we initiated enrollment and dosing in our APVO436 Phase 1b expansion trial. We look forward to receiving data from this trial in the first half of next year and will use the outcomes to inform our go-forward clinical strategy for this promising lead clinical candidate with the potential to impact existing standard of care for acute myeloid leukemia," said Marvin White, President and CEO of Aptevo. "During the quarter we were fortunate to present our clinical work in two peer-reviewed journals and to showcase our ADAPTIR and ADAPTIR-FLEX platforms at multiple industry conferences. We are well funded to continue our work for the next twelve months and look forward to reporting our progress."

#### Third Quarter 2021 Financial Results Summary

**Cash Position**: Aptevo had cash and cash equivalents as of September 30, 2021 totaling \$53.4 million, including restricted cash of \$1.3 million. The restricted cash is expected to be released over the next twelve months.

**Royalty Revenue:** Royalty revenue was \$3.1 million for the three months ended September 30, 2021, related to the royalty from Pfizer on global net sales of RUXIENCE<sup>®</sup>, a biosimilar to the drug RITUXAN<sup>®</sup>, launched by Pfizer in early 2020. RUXIENCE<sup>®</sup> is a trademark of Pfizer; RITUXAN<sup>®</sup> is a trademark of Biogen. Due to our continuing involvement under the Definitive Agreement originally between Trubion and Wyeth, we continue to recognize royalty revenue on net sales of RUXIENCE<sup>®</sup> and record the royalty payments to HCR as a reduction of the liability when paid. As

such payments are made to HCR, the balance of the liability will be effectively repaid over the life of the Royalty Purchase Agreement.

**Research and Development Expenses**: Research and development expenses decreased to \$4.4 million for the three months ended September 30, 2021 from \$4.5 million for the three months ended September 30, 2020. Costs associated with APVO436 clinical trial increased as we continued to advance that trial and have now started dosing in our Phase 1b Expansion program. This increase was offset by lower spending on preclinical projects.

**General and Administrative Expenses**: For the three months ended September 30, 2021, general and administrative expenses increased to \$3.5 million from \$3.2 million for September 30, 2020, with higher costs related to responding to stockholder activism matters and higher employee costs.

**Other Expense, Net:** Other expense, net consists primarily of costs related to debt extinguishment, accrued exit fees on debt, non-cash interest on financing agreements, and interest on debt. Other expense, net was \$2.3 million for the three months ended September 30, 2021 and \$0.7 million for the three months ended September 30, 2020. The increase in other expense, net is primarily related to interest expense and accrued exit fees for the MidCap Credit Agreement, as well as non-cash interest expense for the HCR Purchase Agreement.

**Discontinued Operations:** Income from discontinued operations was approximately \$0.1 million for the three months ended September 30, 2021 and September 30, 2020, related to collection of deferred payments from Medexus earned on second guarter 2021 and 2020 IXINITY sales.

**Net Loss**: Aptevo's net loss for the three-month period ended September 30, 2021 was \$7.0 million or \$1.43 per share, as compared to a net loss of \$6.8 million or \$2.10 per share for the corresponding period in 2020.

Liability Related to Sale of Future Royalties: We treat the Royalty Purchase Agreement with HCR as a debt financing, amortized under the effective interest rate method over the estimated life of the related expected royalty stream. The liabilities related to sale of future royalties and the debt amortization are based on our current estimates of future royalties expected to be paid over the life of the arrangement. We will periodically assess the expected royalty payments using projections from external sources. To the extent our estimates of future royalty payments are greater or less than previous estimates or the estimated timing of such payments is materially different than previous estimates, we will adjust the effective interest rate and recognize related non-cash interest expense on a prospective basis. We are not obligated to repay the proceeds received under the Royalty Purchase Agreement with HCR.
